1. Find the fittings you need:

1. Choose the pipe size and find the code corresponding to it such as **A**, or **B**.
2. If the fittings are reducing fittings, you can show them such as **AB**, or **BC**.

For example:

You want to use 26.9mm(3/4 inches) pipe therefore you need Code **A** fittings.

2. Why Choose HULK Metal to be your supplier?

HULK Metal will complete your order strictly according to ISO9001. Each product will go through a strict inspection. HULK Metal has a modern factory with a strong production capacity and can provide you with high-standard structural pipe fittings which can pass CE, TUV, and other certifications.

In addition to providing you with a variety of surface treatments such as electro-galvanizing, hot-dip galvanizing, and powder coating, HULK Metal also provides more stringent surface quality testing such as coating thickness testing, salt spray testing, and impact resistance testing.

HULK Metal's freight service team integrates dozens of well-known freight companies around the world to provide customers with more suitable freight methods and routes. At the same time, we are equipped with a large freight distribution center to provide services such as cargo warehousing and transit.

HULK Metal has a complete supply chain that can provide customers with a full range of services including procurement, production, quality inspection, packaging, freight, after-sales, etc. Your purchase experience will be easier with HULK Metal's services.
